## Roof renovation

DAKRE-02-26-UK

## Disinfecting and cleaning roofs

With approval from the FPS Health and Environment

A clean or beautifully coated roof gives a home the appearance it deserves. Moss removal and roof cleaning are essential before applying a coating. Use Rewah moss removers and cleaners, available in various concentrations.

<p><b>Demassol</b></p> <ul style="list-style-type: none"> <li>- Powerful disinfectant for removing all kinds of deposits (bacteria, fungi, algae, lichens, and more) on surfaces such as plastic, wood, (ceramic) floors, roof tiles, slates and facades.</li> <li>- <b>Self-cleaning</b> and durable effect until deep into the pores of the base ensuring prolonged protection against degradation.</li> </ul> 		<p><b>Rewanet Mega</b></p> <ul style="list-style-type: none"> <li>- Used for <b>thorough cleaning</b> of slated roofs, roof tiles, concrete, stone, masonry and similar building materials.</li> <li>- The product penetrates and anchors itself into the building material, resulting in a <b>self-cleaning action</b>.</li> <li>- Acts both curatively and preventively.</li> </ul> 
<p><b>Rustclean</b></p> <ul style="list-style-type: none"> <li>- Used to remove rust and corrosion from various metals like iron, cast iron, aluminum, copper, zinc etc. before painting them.</li> <li>- Used for degreasing metal surfaces.</li> </ul> 	<p><b>Rewaclean Pro</b></p> <ul style="list-style-type: none"> <li>- A product used to <b>clean persistent contaminated</b> slate roofs, tiles, concrete, plastering, masonry, facade paint and related alkaline resistant building materials.</li> <li>- The product acts on the contaminated surface and so to speak the dirt will saponify in which these dissolves into water and the dirt.</li> <li>- Based on sodium hypochlorite and surfactants.</li> </ul> 	<p>Also available: <b>Rewanet Mega Concentré.</b></p>

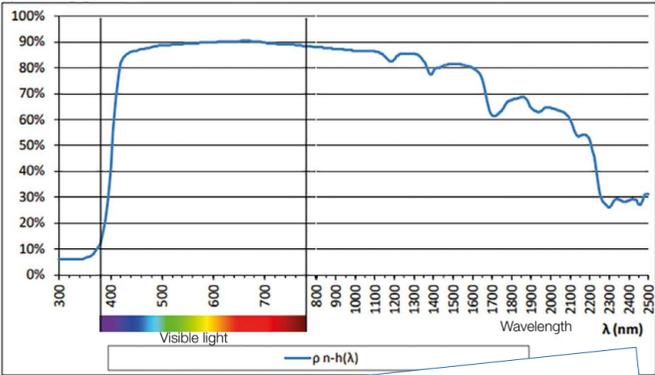

## Roof coatings for pitched roofs

To protect your roof, Rewah offers a range of efficient coatings, THE market reference for decades.

Don't forget the inside roof: we have the perfect solution for the reparation of wooden beams!

<p><b>Ardocolor 2</b></p> <ul style="list-style-type: none"> <li>- Roof coating for the renovation of artificial slates, corrugated sheets in fiber cement, roof tiles in concrete or baked clay.</li> <li>- Water-based, eco-friendly.</li> <li>- UV-resistant, colorfast.</li> <li>- Resistant to moss and algae growth.</li> <li>- To be used with the special primer <b>Ardocolor Primcoat</b>.</li> </ul> 		<p><b>Ardocolor Primcoat</b></p> <ul style="list-style-type: none"> <li>- As a primer when applying <b>Ardocolor 2</b> and <b>Ardocool</b>.</li> <li>- Can be mixed into the first coating layer. This saves one application step.</li> <li>- Water-based.</li> </ul> 
	<p><b>Ardocool</b></p> <ul style="list-style-type: none"> <li>- Optimal reflection of solar radiation, in particular of the infra-red part.</li> <li>- Making the underlying rooms remain cooler in comparison with using classic black paint. Consequently, creates a more pleasant indoor climate.</li> <li>- Ensures a longer lifespan of the roof paint and contributes to energy savings in the home.</li> <li>- Suitable for the renovation of artificial and natural slates, coating corrugated sheets in fiber cement, and roof tiles in concrete or baked clay.</li> </ul>	<ul style="list-style-type: none"> <li>- Water-based, environmentally.</li> <li>- UV-resistant, colorfast.</li> <li>- Resistant against moss and algae.</li> </ul> 

## Flat roofs

<p><b>Inducryl AW</b></p> <ul style="list-style-type: none"> <li>- Makes it possible to repair leaks affecting zinc, tiles and other types of roofing.</li> <li>- Waterproof coating for joints around chimneys, roof edges, skylights, domes, etc.</li> <li>- This leak repair product can be applied to damp materials or in poor weather conditions.</li> <li>- UV-resistant.</li> <li>- Available in black and aluminum.</li> </ul> 	<p><b>Coolroof</b></p> <ul style="list-style-type: none"> <li>- Suitable for coating flat roofs e.g. for light reflection.</li> <li>- Can be used as a reflective coating under solar panels.</li> <li>- Can be used as a restorative coating on flat roofs.</li> <li>- Ready to use.</li> <li>- Sun-resistant and energy-efficient.</li> </ul> <ul style="list-style-type: none"> <li>- Provides maximum reflection of sunlight and reduction in surface temperature.</li> <li>- Increases the yield of solar panels.</li> <li>- Allows for easier cleaning of flat roofs.</li> <li>- High SRI value: 101 (Solar Reflectance Index).</li> </ul> <p>Spectral data</p> 
---	--

Coolroof has been tested according to the standards NBN EN 410:2011, NBN EN 14500:2021, and ASTM E 1980-11. The energetic (81%) and photometric (89%) reflection were tested, from which the SRI calculation is derived. (Solar Reflectance Index): 101.
