

Block brush made from 100% modified polyester fibres (PET/PBT)**Application**

The Blokkwast Pro is manufactured from 100% modified polyester fibres (PET/PBT), making it perfectly suitable for both solvent-based and waterborne paints. Thanks to its lacquered beechwood handle, the brush sits comfortably and securely in the hand.

The fibres are bonded with 2K epoxy in a copper-plated metal ferrule, which virtually eliminates hair loss and ensures resistance to the most common solvents used in the paint industry. In addition, the block brush is equipped with a metal bucket hook for extra convenience.

This brush is ideal for applying various wall paints, both indoors and outdoors, and is particularly suitable for the latest generation of solvent-based and waterborne paints.

The Blokkwast Pro is highly suitable for applying:

- Kalei Liscio 2
- Tensiocoat (brush-stroke finish)
- Tensiocoat Quartz
- Tensiocoat Quartz Xtra
- Calciana Lime Paint

Properties

- Size: 30 x 120mm
- Visible bristle length: 65 mm
- Fibres: 100% PET/PBT
- Ferrule: copper-plated metal
- The fibres are protected with a film around the brush head

Directions**Work method**

After use, clean the block brush thoroughly with water or a brush cleaner. Then seal the brush airtight using a plastic bag and store it in a cool place. To keep the bristles supple, a small amount of soft soap may be applied to the bristles beforehand.

Considerations

The data included in this sheet, the application advice and other recommendations are based on extensive research and experience. They are however not binding also in relation to third party liability. They do not protect the customer against checking the products and directions for their suitability for the purpose. The characteristics and properties described are average values and analyses registered at 20°C, variances are tolerated. Our customer service will gladly answer your questions. The rewrite of this sheet replaces all previous sheets.
